ANTHEM

DREAMCORE™ + ULTRACORE™ CUSHION | ALUMINUM

Homecrest's Anthem cushion collection showcases bent aluminum extrusions and minimal welded joints, offering both aesthetic appeal and robust durability. The design features gentle curves and two luxurious cushion options, reflecting Homecrest's heritage of metal bending and uniquely comfortable seating. Anthem exemplifies the American-made craftsmanship for which our company is renowned.

► SELECT YOUR CUSHION TYPE

Choose from either a DreamCore (XXX-DC) or UltraCore (XXX-UC) cushion with a curved panel design for this collection. DreamCore offers a fuller, softer sit, while UltraCore provides a streamlined look and firmer support. For contract, we recommend the UltraCore cushion.

DREAMCORE™ + ULTRACORE™ CUSHION | ALL-WEATHER POLY

Our Ava collection seamlessly blends modern sophistication with the beauty of nature. Ava's architectural A-frame profile boasts a rustic charm while offering the unmatched durability of our all-weather poly (HDPE) material. Visually resembling natural wood, this sturdy HDPE frame will stand the test of time against the elements without compromising on style. Two sumptuous cushion options beckon you to unwind in your outdoor sanctuary.

► SELECT YOUR CUSHION TYPE

Choose from either a DreamCore (XXX-DC) or UltraCore (XXX-UC) cushion. For this collection, DreamCore features a boxed panel design and a fuller, softer sit, while UltraCore has a curved panel design, streamlined look, and firmer support. For comfort, we recommend the UltraCore cushion.

DREAMCORE™ + ULTRACORE™ CUSHION | ALUMINUM

Elevate your outdoor seating experience with our Blair collection. Blair redefines relaxation with its luxurious cushions and sleek metal back design. The 8" cushions are available in either DreamCore, which offers a fuller, softer sit, or UltraCore, which provides a streamlined look and firmer support. Crafted with precision and strength in mind, Blair's all-aluminum frame ensures longevity and stability for years to come. Blair offers a variety of versatile, modular pieces that allow for unlimited configurations, letting you create arrangements tailored to your unique needs.

► SELECT YOUR CUSHION TYPE

Choose from either a DreamCore (XXX-DC) or UltraCore (XXX-UC) cushion.

For this collection, DreamCore features a boxed panel design and a fuller, softer sit, while UltraCore has a curved panel design, streamlined look, and firmer support. For contract, we recommend the UltraCore cushion.

PRODUCT FEATURE

Select any one of our durable finishes for Blair's metal frame. Blair's frame is completely coated with a textured powder-coat finish. Known as an industry leader for our revolutionary paint line, our eco-friendly finishing department uses modern powder-coat frame finish colors on all of our furniture frames, tables, and bases. With Homecrest's experience and technology, your outdoor space will endure the seasons, year after year. Visit our website for frame finish information and options.

COLLECTION WATCH

Like the look of Blair's slat metal collection, but want a fully upholstered option? Check out Blair's coordinating slip cover collection shown on pages 18 and 19!

Note: Striped fabrics are not recommended.

BLAIR SLIP COVER

Available in:  **Cushion**

DREAMCORE™ + ULTRACORE™ CUSHION | ALUMINUM

Create the ultimate retreat with the refreshing style of our Blair collection. This deep seating series combines sophistication and comfort with fully upholstered backs and supremely comfortable DreamCore and UltraCore cushion technology. Outdoor elegance is effortless with this robust collection of modular and freestanding pieces, perfect for creating versatile seating arrangements. Whether you are selecting furniture for a home patio or a lively commercial space, Blair's pieces can be configured into anything from cozy conversation sets to plush, sprawling sectionals. Best of all, each frame, cover, and cushion is crafted by our skilled team in the USA.

PRODUCT FEATURE

Select a solid color acrylic fabric or sling fabric (look for the "S" icon) for the back of the Blair slip cover pieces.

The cushion fabric can be the same as the back fabric or a coordinating color or pattern. Visit our website for fabric information and options.

Note: When used for the back, solid color fabrics that have a woven texture or pattern will run the opposite direction of the cushion fabric. Sensation slings are not available for the back.

COLLECTION WATCH

Like the look of Blair's slip cover collection, but want a sleek metal back option? Check out Blair's coordinating metal slat back collection shown on pages 16 and 17!

Note: Striped fabrics are not recommended.

BLAIR AIR

SENSATION SLING | ALUMINUM

The Blair air collection features the look and feel of a deep seating piece in a foam-free, cushionless construction. Luxurious Sensation sling fabric is used for the ultimate in low-maintenance comfort and also features benefits such as exceptional shape retention and surface memory. Blair air offers a versatile, stylish, and durable solution for your outdoor seating needs and coordinates with Blair sling and cushion collections.

BLAIR

SLING + PADDED SLING | ALUMINUM

Blair sling offers clean lines and an open design, making it endlessly adaptable across all environments and design preferences. Its gentle minimalism allows it to stay current and fresh, even as trends evolve over time. Solid aluminum and Homecrest's signature comfort make Blair a collection that is equally at home in commercial spaces and residential environments. When looking to furnish multiple areas at work or at play, complement Blair sling with its coordinating air and cushion collections.

BRIDGER

ALL-WEATHER POLY | ALUMINUM

Elevate your outdoor dining experience with the Bridger collection. Constructed with a powder-coated aluminum frame and durable all-weather poly (HDPE) top and seats, Bridger visually resembles natural wood but eliminates the upkeep and maintenance that comes with it. Transform your outdoor space with this sturdy picnic table that combines robust design and practical elegance.

PRODUCT FEATURE

Bridger's planks feature color consistency throughout the cross section and are manufactured from high-quality recycled HDPE (High Density Polyethylene) to create long-lasting polymer lumber. HDPE is a low-maintenance, environmentally friendly product that features a textured surface that doesn't rot or splinter, doesn't require paint or stain, and is resistant to termites, fungus, salt, and oils.

CASPER

WOVEN | STEEL

Sleek design meets functional elegance in the Casper collection. Made with high-quality materials, it offers excellent weather resistance and durability in high-traffic areas. Casper's eco-friendly steel frame is recyclable, while its innovative woven mix of rope and resin adds visual appeal. This collection features a lightweight, low-maintenance construction that allows for easy maneuverability and stress-free enjoyment. Ideal for outdoor dining areas or poolside settings, Casper's versatile design complements any space.

► SELECT YOUR CUSHION TYPE

Choose from either a DreamCore (XXX-DC) or UltraCore (XXX-UC) cushion.

For this collection, DreamCore features a boxed panel design and a fuller, softer sit, while UltraCore has a curved panel design, streamlined look, and firmer support. For contract, we recommend the UltraCore cushion.

HARBOR

SLING + PADDED SLING | ALUMINUM

Our Harbor sling collection captures a classic maritime-inspired design, infused with Homecrest's signature style and quality. The all-aluminum frame ensures a low-maintenance and corrosion-free finish, while the custom-extruded arms are rounded into a graceful ellipse for comfort and style. Paired with our ultra-comfortable double layer sling, Harbor offers the experience of a weekend getaway to a luxury resort.

IN-POOL SERIES

All In-Pool products are available in a variety of colors and are suitable for use in both chlorinated and saltwater pools, as well as on all pool materials like concrete, vinyl liners, and gunite. They can be easily removed from the pool to be used on the pool deck. Each product has a recommended maximum water depth for best performance.

- Fully compounded color (not dry blended) with UV light stabilizer to increase longevity of color retention in direct sunlight applications
- Average material thickness of .20" or greater
- Waterproof, rustproof, and 100% recyclable
- Suitable for both indoor and year-round outdoor use
- Tested to support up to 750 lbs

Cushions are secured to withstand wind and ensure long-lasting performance.

*Units are not standalone pieces. We recommend using end units with arms on all modular configurations due to exposed brackets on armless versions.

► SELECT YOUR CUSHION TYPE

Choose from either a DreamCore (XXX-DC) or UltraCore (XXX-UC) cushion with a curved panel design for this collection. DreamCore offers a fuller, softer sit, while UltraCore provides a streamlined look and firmer support. For comfort, we recommend the UltraCore cushion.

SENSATION SLING | ALUMINUM

The mid-century modern era was a great time to be in furniture design. Decades later, this iconic style is experiencing a renaissance, but with all of the benefits of current technology. The Revive air collection uses our unique Sensation sling material, which offers incredible stretch, memory, and UV resistance, providing the look and feel of a cushion with none of the maintenance.

NEED MORE WEIGHT?

Homecrest's patent-pending, zinc-plated steel Swivel Rocker (KIT90) and Dining Chair (KIT91) Wind Kits add an additional 10 lbs. Kits are easy to install and are available in all finishes.

SURF

ALL-WEATHER POLY | ALUMINUM

The nature-inspired Surf collection combines contemporary design with practical style, making it an ideal choice for high-traffic areas like gardens, parks, and college or corporate campuses. With a powder-coated aluminum frame and curving all-weather poly (HDPE) seat and back, Surf delivers unmatched durability to withstand the elements. Its versatile aesthetic seamlessly complements any outdoor setting, while modular pieces can be configured to meet your space's specific needs. Homecrest's supplied brackets ensure secure attachment of units to one another and to the ground, offering ultimate flexibility and security.

SUTTON

CUSHION | ALUMINUM

Plush, all-weather back and seat cushions, plus strong lines and durable aluminum frames, are just the beginning of the story that describes Homecrest's Sutton cushion collection. Creating an outdoor space is easy with Sutton's bold shapes. Gently sloping backs promote restful lounging while Homecrest's luxurious cushions hug your body with softness and support. From every angle, the innovative design of the Sutton collection strikes a modern pose.

SUTTON

SLING + PADDED SLING | ALUMINUM

The Sutton sling collection offers the refined comfort of Homecrest's signature double layer sling, perfect for al fresco dining or lounging. Sutton's geometric frame design contrasts with the gently curving sling seat to give outdoor spaces a refined, but energizing, aesthetic. The durable all-aluminum frame can be augmented with an add-on Wind Kit to add weight for windy environments.

DREAMCORE™ + ULTRACORE™ CUSHION | ALL-WEATHER POLY

Designed to endure the demands of outdoor living, our Willow collection boasts sleek lines, durable all-weather poly (HDPE) construction, and exceptionally comfortable cushions. The HDPE frame adds warmth and natural beauty, enhancing aesthetic appeal while ensuring resistance to the elements. Versatile and customizable, Willow offers a range of modular pieces that allow for unlimited configurations, making it the perfect choice for any outdoor space.

► SELECT YOUR CUSHION TYPE

Choose from either a DreamCore (XXX-DC) or UltraCore (XXX-UC) cushion. DreamCore offers a fuller, softer sit, while UltraCore provides a streamlined look and firmer support. For contract, we recommend the UltraCore cushion.

EDEN TABLES

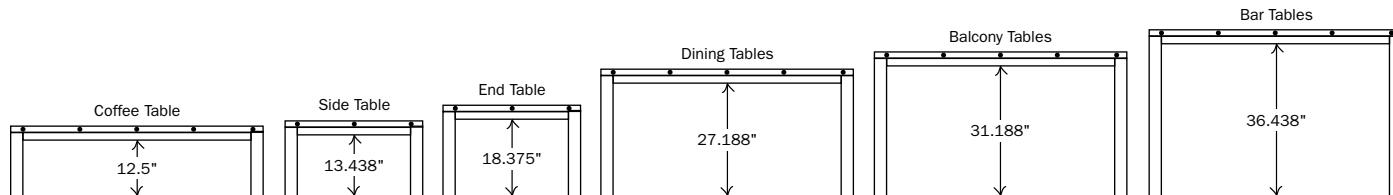

ALL-WEATHER POLY | ALUMINUM

Eden's warmly functional design is sparked by Swedish simplicity and flawless craftsmanship. Constructed with all-weather poly (HDPE) materials, Eden is a slatted, teak-inspired top with an aluminum base that is available in all of Homecrest's textured powder-coated finishes. Available in occasional, dining, balcony, and bar heights, the modern appearance of the Eden collection bears the essence of cool sophistication and the welcoming warmth of comfort you expect from your Homecrest outdoor furniture.

PRODUCT FEATURE

Eden's planks feature color consistency throughout the cross section and are manufactured from high-quality recycled HDPE (High Density Polyethylene) to create long-lasting polymer lumber. HDPE is a low-maintenance, environmentally friendly product that features a textured surface that doesn't rot or splinter, doesn't require paint or stain, and is resistant to termites, fungus, salt, and oils.

Note: These complete table units only require one model number when ordering. Height listed is the complete table height and can vary up to 1/4". Table tops feature a 3.5" edge profile.

INTEGRITY TABLES

COMPOSITE MELAMINE | ALUMINUM

Integrity table tops achieve a commercial trifecta, uniting extreme durability, excellent utility, and pleasing aesthetics in a single unit. These tables are impervious to chemical and thermal effects; meet rigorous standards for UV resistance, impact testing, and hygiene; and are a breeze to maintain in any outdoor application. Available in multiple sizes and finish options, Integrity tops can be paired with a variety of Homecrest bases to meet the height, functional, and aesthetic requirements of your project.

Note: For "Top + Base" units, use both model numbers when ordering. For "Complete" units, only one model number is needed. The listed height is the complete table height and may vary by up to 1/4".

LATITUDE FIRE TABLES

ALUMINUM

Our Latitude fire table's clean, slatted aluminum top offers effortless, versatile styling—evoking a breezy boardwalk aesthetic for coastal settings or a rustic charm reminiscent of a luxury ski lodge. No matter your outdoor space, Latitude fire tables can fit and elevate the aesthetic. Homecrest fire tables offer a powerful burner (up to 65,000 BTUs) and come standard with your choice of fire jewelry, as well as a secure key and black 3/4" aluminum fire burner riser.

MODE CLUB TABLES

ALUMINUM

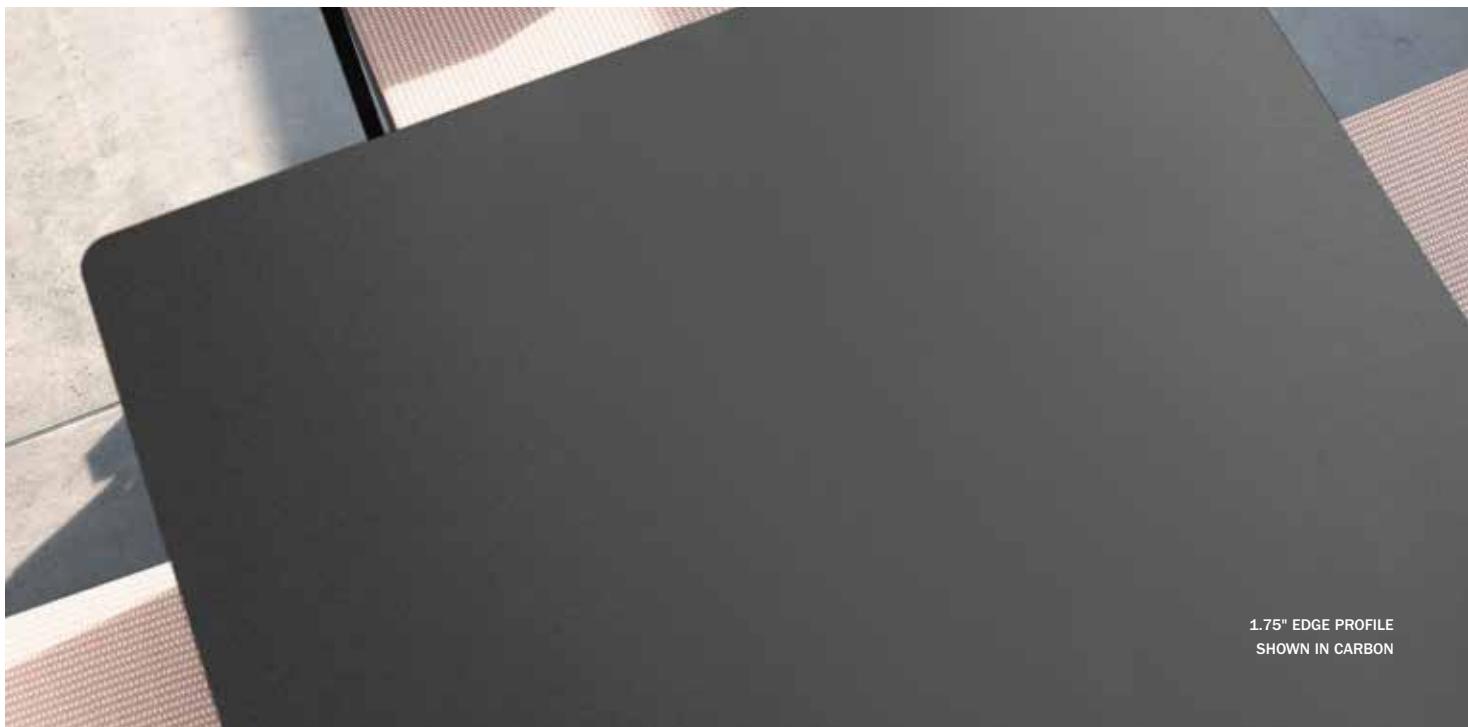

Building on our popular Mode collection, Homecrest's Mode Club is a complementary series of contemporary table tops that are uniquely designed for hospitality applications. Mode Club tables feature clean lines and smooth contours in a variety of shapes and sizes that are specifically selected for outdoor spaces in public places. Like its sister collection, Mode Club tops are available in DuoTone color options. Pair these sophisticated tops with the Homecrest base that appropriately meets the height, functional, and aesthetic requirements of your project.

AVAILABLE TOP COLORS + FRAME FINISHES

Note: For "Top + Base" units, use both model numbers when ordering. For "Complete" units, only one model number is needed. The listed height is the complete table height and may vary by up to 1/4". Table tops with an umbrella hole come with a clear smooth plastic plug.

UMBRELLA BASE PLATE (Zinc-plated, Solid-steel)	N/A	23UMB or 33UMB (Required with Umbrella)	23UMB or 33UMB (Required with Umbrella)	23UMB or 33UMB (Required with Umbrella)

*When using the pedestal bases with an umbrella, an umbrella base plate is required. This zinc-plated, solid-steel umbrella base is available in all frame finishes and attaches to the table base. It can also be used to add weight to any pedestal table base. Use the 18" umbrella base plate (23UMB) with bases 2330B, 2334B, and 2340B. Use the 24" umbrella base plate (33UMB) with bases 3330B, 3334B, and 3340B. These bases feature adjustable floor glides for leveling.

SHADOW ROCK FIRE TABLES

NATURAL SERIES | ALUMINUM

The distinct texture and natural colors of Homecrest's Shadow Rock fire tables complement any outdoor furniture set beautifully. These handcrafted fire table tops feature subtle texture with a natural edge and are able to withstand the test of time and weather, season after season. Homecrest fire tables offer a powerful burner (up to 65,000 BTUs) and come standard with your choice of fire jewelry, as well as a secure key and black 3/4" aluminum fire burner riser.

Note: Each top is individually handcrafted and will vary in color. Colors are representations, refer to an actual sample.

FIRE TABLES

Note: Each fire table comes standard with a 12" x 24" rectangular or 20" round 65,000 BTU stainless steel black powder-coated burner, external key valve, match-light ignition, 20 lbs of fire jewelry (select one or two colors), and a black 3/4" fire burner riser. The burner is available as either Liquid Propane (XXX-JLP) or Natural Gas (XXX-JNG)—if one is not selected, the burner will default to the Liquid Propane option. The square and rectangular fire tables feature a 3" natural edge profile and the round fire tables feature a 1.5" natural edge profile.

STONEGATE FIRE TABLES

NATURAL SERIES | ALUMINUM

Stonegate fire tables feature the dramatic beauty of natural rock and a clean, smooth finish to create a versatile design. Combining traditional elements with modern finishes, Stonegate is made for style and durability. These fire tables are on-trend yet timeless and perfect for both residential and commercial applications. Homecrest fire tables offer a powerful burner (up to 65,000 BTUs) and come standard with your choice of fire jewelry, as well as a secure key and black 3/4" aluminum fire burner riser.

FIRE TABLES

Note: Each fire table comes standard with a 12" x 24" rectangular or 20" round 65,000 BTU stainless steel black powder-coated burner, external key valve, match-light ignition, 20 lbs of fire jewelry (select one or two colors), and a black 3/4" fire burner riser. The burner is available as either Liquid Propane (XXX-JLP) or Natural Gas (XXX-JNG)—if one is not selected, the burner will default to the Liquid Propane option. The square and rectangular fire tables feature a 3" straight edge profile and the round fire tables feature a 2" straight edge profile.

TIMBER FIRE TABLES

NATURAL SERIES | ALUMINUM

Individually handcrafted and cast from beautiful reclaimed wood tables, our Timber fire tables look incredibly realistic. Our Timber tops are made with extremely durable materials, allowing them to withstand even the toughest weather conditions. Homecrest fire tables offer a powerful burner (up to 65,000 BTUs) and come standard with your choice of fire jewelry, as well as a secure key and black 3/4" aluminum fire burner riser.

CRANK LIFT/AUTO TILT MARKET UMBRELLA

This is the ONLY crank lift/auto tilt in the industry designed and warranted for commercial use. Our crank lift/auto tilt market umbrella is engineered to withstand 40 mph sustained winds and works with any Homecrest table with an umbrella hole.

- 316 stainless steel, commercial-grade, 60° tilt crank handle and axle
- 1.5" diameter center pole with a 1/8" aluminum wall thickness provides incredible durability
- 1/2" fiberglass ribs and struts for maximum strength and flexibility
- Stainless steel grommets attach the canopy securely to the frame
- 4-layer fabric protection and closed stitching pocket

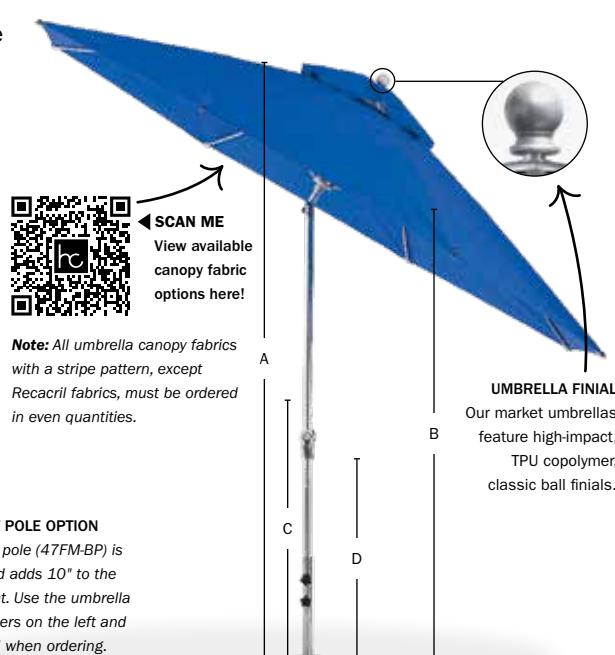

6.5' SQUARE

OUTDOOR RUGS

Homecrest's line of Luxury Woven Vinyl rugs offer the ultimate in resilience, durability, and fade resistance. Each rug features a beautiful woven vinyl face fabric directly attached to a vinyl cushion backing. Fast-drying, antibacterial, and antimicrobial, this unique vinyl-on-vinyl construction makes our rugs ideal for outdoor use in heavy-traffic areas. With their American-made quality and domestically sourced raw materials, these rugs ensure long-lasting style that can't be matched.

HOMECREST FABRICS

SLINGABLE + CUSHION + MORE

Without great fabrics, outdoor spaces lack meaning and inspiration. The perfect combination of texture, color, and pattern not only adds beauty, but has the power to invigorate and rejuvenate. Homecrest offers a complete selection of fabric options so you can create a custom outdoor space tailored to your design aesthetic. Our double layer slings provide exceptional support, while our Sensation slings take this double layer design and add a level of unmatched comfort and shape retention. In addition, Homecrest has partnered with several popular fabric vendors to offer cushion fabric options that feature premium performance and durability without sacrificing design.

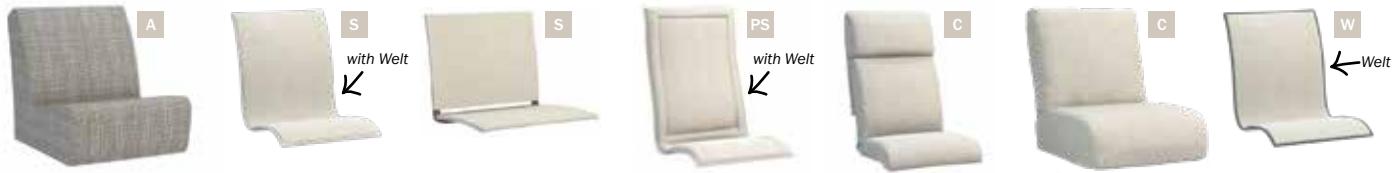

SEATING OPTIONS LEGEND:

A Air S Sling PS Padded Sling C Cushion U Umbrella V Vintage Wire W Welt

SEATING OPTION + FABRIC SELECTION GUIDE

A **Air** | Homecrest air collections feature the appearance and comfort of deep seating in a foam-free, cushionless construction. Luxurious and exclusive Sensation sling fabrics are used for the ultimate in low-maintenance comfort and feature benefits such as exceptional shape retention and surface memory. The air sling has a double layer design that is extremely comfortable and field-replaceable. All double layer slings carry a five-year residential and two-year commercial warranty.

S **Sling** | The Homecrest-pioneered sling is constructed of two layers for unmatched comfort and support. Our durable sling is easily replaceable and available in a variety of outdoor fabrics, including our exclusive Sensation slings. Minimal maintenance and comfortable design continues to make the Homecrest sling a #1 choice from coast to coast. When selecting a Homecrest sling seating option (except for Allure and Elevate), a welt or binding selection is required. Weltling will match the frame finish unless an alternate is selected. Slings utilize the same fabric on the front and back for an attractive look. All double layer slings carry a five-year residential and two-year commercial warranty.

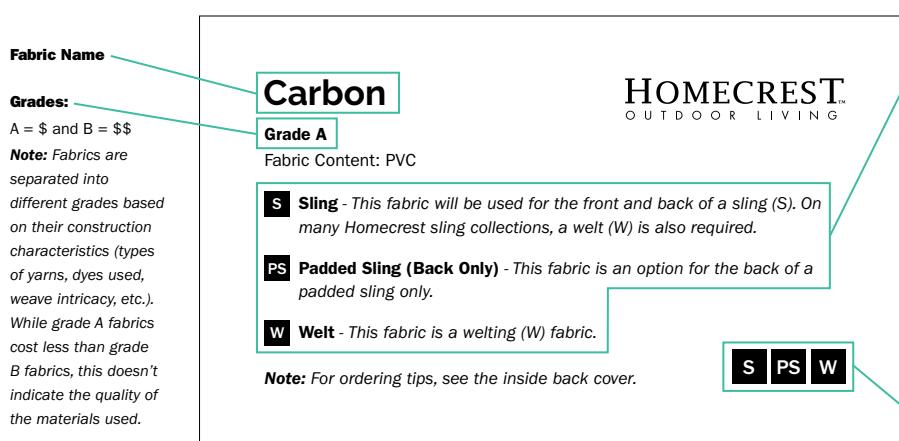

PS **Padded Sling** | Our padded sling seating option features a triple layer sling with slight padding for added comfort. This attractive chair with distinctive silhouette stitching gives you not only a comfortable sit, but also a stylish addition to your outdoor space. The padded sling expands your fabric options to outdoor fabrics from suppliers like Sunbrella® and Tempotest®. For the padded sling seating option, select one of these outdoor fabrics for the front and a Homecrest sling fabric for the back. Like the sling seating option, our padded sling requires a welt or binding selection. Weltling will match the frame finish unless an alternate is selected.

C **Cushion** | Our durable cushions provide unmatched comfort and weather-resistance in today's fast-paced world, with options including deep seating cushions, dining cushions, removable seat pads, and padded seats. The deep seating cushions are available in plush or firm styles that are tailored to each collection and feature either a curved or box panel design.

W **Welt** | Weltling or binding will match the frame finish unless an alternate is selected.

HOW TO READ A HOMECREST FABRIC LABEL + MAKE ORDERING EASY

When choosing a fabric for the product selected, seating option coding will confirm the availability. Please indicate the fabric grade and follow the "ordering process" instructions for that fabric.

Ordering Tips:

A **Air** - Sensation sling fabrics will be used for the front and back of air (A) collections. A welt fabric is not required.

S **Sling** - Sling fabrics will be used for the front and back of a sling (S). On many sling collections, a welt (W) is also required. If a welt is not selected, it will default to the frame finish.

PS **Padded Sling** - The padded sling (PS) front is available in acrylic and other fashionable fabrics. A Homecrest sling (S) fabric is required for the back. If a back or welt (W) fabric is not selected, it will default to the frame finish.

W **Welt** - On many sling collections, a welt (W) is required. If a welt fabric is not selected, it will default to the frame finish. Some fabrics are available in both sling (S) and welt fabrics, creating a seamless or self-welted look.

Denotes what seating option the fabric is available on.

SENSATION SLING FABRICS

Since 1953, Homecrest has built its reputation on quality, innovation, and comfort. One landmark example of this was our introduction of the Sensation sling in 2002. As pioneers in the elastomeric fabric category, we have more than two decades of experience building Sensation sling furniture; to this day, there is nothing that comes close to the maintenance-free comfort, memory, colorfastness, and longevity of a Homecrest Sensation sling chair.

Sensation slings are constructed using an elastomeric yarn that is woven together with normal PVC sling fibers, creating a material that has amazing stretch characteristics for comfort, and outstanding memory for fabric longevity. If you have never sat in a Sensation sling chair, you really need to—the difference in comfort between a Sensation sling and a standard PVC sling is remarkable. The fabric stretches and moves according to the frame of the person sitting in it, while providing excellent support and comfort.

All of Homecrest's Sensation sling products go through 90,000 cycles of drop-testing without damage. Our testing has also shown that Sensation fabrics promote the structural integrity of the metal frames used in chair construction, as the elastomeric characteristics absorb much of the shock that would normally be borne by the supporting frame.

As for maintenance, Sensation fabrics just can't be beat. There's no such thing as a 'dry time' after rain—if a Sensation sling product needs to be used immediately after a storm, towel it off and it's ready to go. Likewise, cleaning is a breeze, and the Sensation fabrics' incredible colorfastness makes them look showroom ready, year round.

At Homecrest, we use Sensation fabrics on air products and dining furniture alike. Whether on a single chair or a giant sectional, all Sensation sling products feature our double layer sling technology. Plus, our air collections' unique "cushionless", foam-free construction brings together the very best in comfort, style, and maintenance-free outdoor living.

SLINGABLE FABRICS

Homecrest sling (S) fabrics can be used on all sling seating collections with the exception of Homecrest air (A) collections. Products that indicate air as a seating option are only available in Homecrest's Sensation slings. Homecrest's double layer sling has both a welted design and non-welted design, signified by the collection. The sling fabric will be the same on the front and the back unless a padded sling is selected.

The padded sling (PS) seating option is only available in acrylic and other fashionable fabrics, also known as cushion (C) fabrics, but require a sling back fabric selection and a welt (W). Look for sling fabrics with the (W) symbol for welting. The welt color will always default to match the frame finish unless an alternate is selected.

TEMPOTEST FABRICS

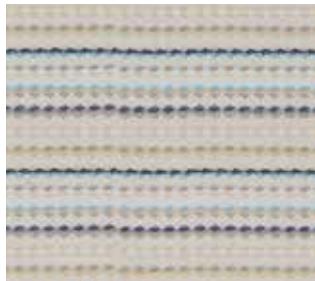

LUXURY PERFORMANCE FABRICS

Designed for any outdoor space, Tempotest® fabrics combine the resistance and performance of solution-dyed fabric with style and color. These fabrics are treated with Teflon® Extreme, which provides stain resistance, easy cleanability, and minimal maintenance. Tempotest fabrics can be used on our cushion and padded sling seating options.

REPLACE. REVIVE. RE-LOVE.

REPLACEMENT SLINGS, CUSHIONS, + PARTS

Whether you're looking for slings, cushions, pillows, paints, or parts, with Homecrest Outdoor Living's exclusive replacement program, you can easily revitalize your existing Homecrest outdoor furniture. Replacements for our outdoor furniture are available for both current and discontinued products. Replacements for many of our classic outdoor furniture collections are still available today, including our vintage wire frame collections.

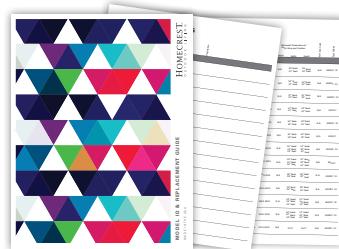

NEED HELP IDENTIFYING A PRODUCT?

Homecrest has made it easy to determine which collection your product is a part of. Here are three tools to help you with the identification of your product:

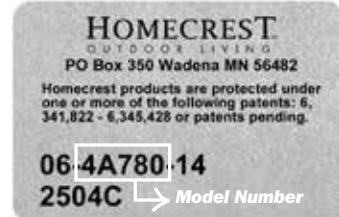

The **Catalog Archive**, found at homecrest.com/catalog-archive, is an invaluable tool for identifying replacements for resilient Homecrest outdoor furniture by allowing you to look through past catalogs. With the model number identified, use the Model Identification Guide to direct you to the replacement number needed.

The **Model Identification Guide**, found at homecrest.com/model-identification, allows you to search (Ctrl+F) by model number, collection name, year of purchase, and product type (i.e. glider, swivel rocker, etc). Once you have found your product, refer to the "Replacement #" column to find the replacement number you need to use when placing an order. *Note: Replacement arm and floor glides are also listed.*

Products manufactured after 1998 have a **manufacturing decal**, which is located on the product's metal frame. On the manufacturing decal, there is a set of digits. The first two digits indicate the week of the year the product was produced, the next set of digits represent the product's model number, and the last two digits are the year the product was produced. With the model number identified, use the Model Identification Guide to direct you to the replacement number needed.

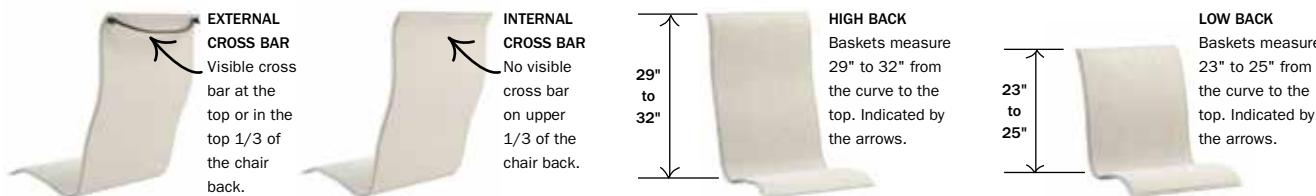

HOW TO IDENTIFY YOUR SLING OR PADDED SLING BASKET

The majority of replacement baskets are low back and high back sling chairs that Homecrest has produced over the years. These chairs utilize four different replacement slings. Here is a quick way to identify replacements needed for these four types of chairs.

- Determine if your chair has an external or internal cross bar and if your chair is a high back sling or a low back sling.

- Select your sling style. *Note: A sling replacement tool is included with each order.*

HOW TO DETERMINE THE FABRIC YOU NEED

Reference swatch labels or the fabric index in both the catalog and price list to identify fabrics that are available for your type of replacement. You can view an example of the fabric label on page 139.

SEATING OPTIONS LEGEND:

Umbrella **Vintage Wire** **Welt**

ASSEMBLY OF REPLACEMENTS

There are several how-to guides and videos available at homecrest.com/replacements that will assist you with the assembly of your slings and padded slings.

Need help visualizing these options? Visit the Interactive Design Center at design.homecrest.com to create the look that fits your style! *Note: Colors are representations, please refer to an actual sample.*

HOMECREST PRODUCT CARE + MAINTENANCE

▲ FABRIC CARE

The life of your outdoor fabric depends on how it is cared for and maintained. It is important to clean your products regularly and as promptly as possible after being exposed to outdoor debris, sprays, and lotions. To help keep your furniture from unnecessary wear, store your cushions indoors or cover them with a breathable furniture cover when not in use.

DO NOT USE SOLVENTS, JANITORIAL CLEANER, ALCOHOL-BASED CLEANERS/PROTECTANTS, SCOURING AGENTS, UNDILUTED BLEACH, GASOLINE, OR AMMONIA-BASED CLEANERS. USING THESE PRODUCTS MAY CAUSE DISCOLORATION.

Tip: Keep sun lotions and sprays, as well as any oil-based products, away from furniture. Some may contain harsh chemicals and can permanently discolor or damage fabrics. If direct contact occurs, clean promptly.

POLYESTER VINYL COATED (PVC), PVC + ACRYLIC, AND OLEFIN BLENDED FABRICS

To clean, first prepare a simple cleaning solution of 1 tablespoon of liquid dish detergent, 2 tablespoons of household bleach, and 1 gallon of water. Then, clean the fabric using a sponge or soft cloth dipped in the solution. Rinse thoroughly with clean water and allow to air dry. Never use a commercial washer or dryer to clean slings.

100% ACRYLIC AND ACRYLIC/POLYESTER BLENDED FABRICS

Using a mild liquid soap and warm water, spot clean the affected area with a cloth or soft brush. For 100% acrylic fabrics, 1/4 cup of chlorine bleach may be added to 1.5 gallons of the mild soap solution to treat mildew and more aggressive stains. Rinse the item thoroughly, shake to remove excess moisture, and allow to air dry. Placing a cushion on its side will allow the water to drain and the cushion to dry faster. Never use a commercial washer or dryer to clean cushions.

VINYL STRAPS

Using a soft cloth, clean with 2 tablespoons of mild liquid soap mixed with 1 gallon of warm water. Use toothpaste or gentle abrasive to remove scuff marks.

WOVEN PRODUCTS

To clean our woven furniture, use non-abrasive soap or standard household cleaners and gently wipe the surface with a soft cloth. After cleaning, rinse thoroughly with hose water. Do not use pressure washers, as they may harm the finish.

▲ TABLE TOP CARE

NATURAL SERIES SURFACES

Natural Series surfaces should be cleaned on a regular basis with mild soap and water and a sponge or soft cloth. If necessary, use a mild abrasive cleaner to release any embedded dirt. Rinse thoroughly with clean water.

ALL-WEATHER POLY (HDPE) SURFACES

For general cleaning, simply use a mild dish detergent and water, scrubbing with a soft-bristled brush, and rinse thoroughly.

► FRAME CARE

Regular care and maintenance of your aluminum and steel frames is very important and exceptionally easy. Frequency of care will depend on the amount of use, exposure to the elements, and use conditions.

CLEANING

Wash or spray down the frames with clear water or a mild soap and water solution to remove dust, pollen, chemicals, salt water, dirt, etc. Do not use abrasive cleaners or power washers.

MAINTENANCE

Apply a coat of clear liquid car wax at least once a year to maintain and protect the paint finish.

COASTAL ENVIRONMENTS

Product that is used in a coastal environment may experience additional demands on the surface finish due to the salt air. Prevent oxidation by cleaning away salt residue buildup on a weekly or biweekly basis. Wax the finish quarterly to maintain a strong finish. If regular maintenance is not performed and the finish experiences blistering, the warranty on the finish would be void.

STORAGE

It is best to store furniture indoors or cover them with a breathable furniture cover. If the climate of your area experiences freezing conditions, do not store any product upside down. Moisture can accumulate and freeze in the frames, which can crack, distort, or break the frame tubing.

FRAME TOUCH-UPS

Follow this process if the finish is scratched or chipped. First, sand the affected area lightly with fine steel wool or 400-600 grit sandpaper for better paint adhesion, then wipe it clean. Cover adjacent areas to avoid overspray and, holding the can 8-10 inches away from the area, apply thin coats of paint. Allow ample time to dry between coats. Do not try to cover the area in one coat; this may result in paint running or a change in the surface texture or the gloss of the finish. Paint may be sprayed on a separate surface and applied using a small artist brush, if desired.

If you are working with a finish that consists of multiple colors, you may want to practice on a piece of cardboard or other material first. Apply the base coat first and allow to dry 3-5 minutes. Then, apply light spurts of the top color until the desired look is achieved. If the area becomes too light after the finish has dried, apply a light dusting of the base coat.

If corrosion has occurred on steel products, treat the area with Loctite® Extend Rust Neutralizer or Naval Jelly® Rust Dissolver following manufacturer's instructions. Then continue with the touch-up process described above.

Tip: Contact your dealer for touch-up paint. Always store your touch-up paint upside down to avoid the nozzle from becoming plugged.

► WARRANTY

For products used in a **residential setting**, frames are warranted for fifteen years, slings are warranted for five years, and cushions are warranted for two years. For products used in a **commercial setting**, frames are warranted for five years, slings are warranted for two years, and cushions are warranted for one year. Scan the QR code or visit warranty.homecrest.com to view the complete Homecrest warranty.
